

MEET EXERON THE OFF-GRID BEAST AT YOUR SAFARI

EXERON. CODE GREEN.

- ✓ **Reliable and cheap energy**
- ✓ **Sustainable operation**
- ✓ **Energy independence**

Exeron powers off-grid or “bad grid” locations in a reliable and sustainable way

Full energy autonomy and grid independence

Intelligent control of generation sources with the option for 100% green energy

CO2 emissions avoidance – 329 t/year

OPEX saving up to 82% through post hybridization annually

CAPEX – payback period of 3.6 years

The Exeron is 100% reliable – full system failure is not possible

SCALABLE, REDUNDANT AND MODULAR

Easy to install and maintain with small footprint and light architecture

Custom-made solutions for each lodge! No “one-fits all” approach

International award – EES Award, Intersolar Germany
